

Introduction

This directory represents the first comprehensive compilation of HFS 75-certified adolescent substance abuse treatment facilities in Wisconsin. It is intended to be a resource for behavioral health professionals, consumers, and policy makers.

Every effort was taken to make it as accurate as possible. However, the information in this directory is solely based on that reported by each of the treatment organizations. Also, because a

facility's operations can change at any time, readers may occasionally encounter information in this directory that is no longer correct. Consumers should always verify any information listed here with the facility before making any health care decisions.

About Project Fresh Light...

Project Fresh Light is an initiative of the Wisconsin Department of Health and Family Services and its Bureau of Mental Health and Substance Abuse Services. The project is funded through a federal grant from the Center for Substance Abuse Treatment of the US Department of Health and Human Services.

www.projectfreshlight.org

This directory was developed as part of the *Project Fresh Light* partnership between the Wisconsin Department of Health and Family Services (DHFS) and the Wisconsin Alcohol and Drug Treatment Providers Association Inc (WADTPA).

Please send changes and revisions for this directory to:

Statistical Profile

Adolescent Substance Abuse Treatment Facilities

Total number of HFS 75-certified* treatment facilities for adolescents 241

Types of services (level of care)	Number
75.05 Emergency outpatient	39
75.06 Medically manage inpatient detoxification	15
75.07 Medically monitored inpatient detoxification	7
75.08 Ambulatory outpatient detoxification	7
75.09 Residential intoxication monitoring	2
75.10 Medically managed inpatient treatment	11
75.11 Medically monitored inpatient treatment	13
75.12 Day treatment	33
75.13 Outpatient treatment	222
75.14 Transitional residential treatment	8
75.15 Narcotic treatment for opiate addiction	15

NOTE:

* HFS 75 refers to Chapter 75 of the Wisconsin Administrative Code that specifies the standards for provider organizations that treat substance use disorders. All substance abuse treatment agencies that receive state or federal funding must conform to these standards. Also, commercial group health plans may deny reimbursement to treatment agencies that are not certified under HFS 75.

Helpful Information for Consumers

How to use this directory . . .

Facilities are listed alphabetically by the *cities* in which they are located. However, they are also listed a number of different ways in the appendices if you are looking for specifics, such as which facilities in your city will accept Medical Assistance or which offer day treatment.

My child is using drugs and needs help. Where do I start?

You may wish to call several providers in this directory to ask about their services or set up an appointment. Asking others who may have been through similar situations is often helpful, or contact your county's 51.42 board agency to speak with someone about resources in your area [see the listing of county 51.42 agencies on page 125 of the appendices].

What is a county 51.42 agency?

Chapter 51 of the Wisconsin statutes requires each county to provide mental health and substance abuse services for its residents on an ability-to-pay basis. These county agencies either provide services directly or sometimes contract with private providers. 51.42 agencies go by various names, such as Human Services or Community Services. County 51.42 agencies are good sources of information for consumers.

How much help does my child need?

Treatment providers will first conduct a thorough assessment of your child. This involves an extensive interview and perhaps some other testing. The counselor will also ask you as parent(s) or caregiver(s) for information regarding medical history and behavioral observations. The counselor will discuss the assessment results with you and your child to develop an appropriate treatment plan. Insurance, other funding and confidentiality matters will be discussed as well. Ask plenty of questions.

What are co-occurring disorders or dual diagnoses?

That means that a mental health issue (such as attention deficit or depression) exists along with a substance use disorder. Some facilities specialize in treating co-occurring disorders.

Where can I get more information?

Please visit *Project Fresh Light's* web site: www.projectfreshlight.org

There are resources for parents and caregivers, including links to other web sites. Public libraries also carry a variety of books that can be helpful to parents going through difficult times.

Some Web Sites . . .
